PROJECTS

Medical Management System / HTML, CSS, JavaScript, Bootstrap MySQL, PHP

- About project I developed a Medical Store Management System using HTML, CSS, JavaScript, Bootstrap, MySQL, and PHP. The system manages inventory, sales, and customer records with a responsive, user-friendly interface. PHP and MySQL handle real-time data processing for transactions and stock updates, showcasing my ability to integrate front-end and back-end technologies efficiently..

GYM Management System / HTML, CSS3, JavaScript, PHP, MySQL

- About project I developed a GYM Management System using HTML, CSS, JavaScript, Bootstrap, MySQL, and PHP. This system manages memberships, schedules, and payments with a responsive design. The backend, powered by PHP and MySQL, ensures efficient data handling, while JavaScript adds dynamic functionality, creating a seamless user experience across devices...

INTERNSHIP

Ardent Computech Pvt. Ltd.

05 2024 – 07 2024

Frontend developer

Ranchi, Jharkhand

- About the role During my 2-month internship, I honed my front-end design skills, with a strong focus on creating responsive layouts and improving design aesthetics. This experience enhanced my ability to build visually appealing, user-friendly, and adaptable web interfaces.

TECHNICAL SKILLS

Languages: C, JavaScript, MySQL

Developer Tools: VS Code

Technologies/Frameworks: HTML, CSS, Bootstrap, GitHub

EXTRACURRICULAR

Dr. Shyama Prasad Mukherjee University Ranchi

Volunteer

- About the role As a volunteer for the "Computer Hardware Maintenance Workshop Day," I helped set up desks, guided participants through hands-on activities, provided technical guidance, and made sure the program ran smoothly. In addition, I assisted in troubleshooting hardware difficulties and supporting communication between professors and participants, all of which contributed to a good learning experience.
